I kid you not, I got chills watching this.

I'm not a parent yet, but when I am, I hope I am as brave, strong and responsible as this guy. His kids are lucky. Damn lucky.

Let me set this up for you – it's a school board meeting on "Critical Race Theory" and this father, stands up and rips CRT to shreds, limb-from-limb.

He shares his own life story, and how he worked his butt off to get where he is right now – two medical degrees, and he wants to know, "how is that oppression?"

This father says if we allow this type of teaching, our kids will grow up hating one another...he said CRT is the exact opposite of what MLK taught and it's sending us backward.

Trust me, he says it way better than I am – you just need to listen, and share this for others to see.

You can watch the video below:

The left is trying to take over our kids’ minds right now.

That’s what this is about. It’s political indoctrination and white hate.

We can’t allow this to happen...we already know the outcome. We’ve seen what this type of teaching has done to college students...it’s turned them into full-blown communists who hate their country.

Now, the left, who saw how successful this type of teaching was in colleges and universities, is trying to capture kids when they’re younger.

They want to create a scenario in this country where blacks are always victimized and whites are always demonized.

This is not “unity,” this type of teaching will tear our nation even further apart and we must end it.

Keep fighting!
